

Breakthrough technologies to decarbonize energy-intensive industries

Source: EPA 2020

Electrification

Cloud Building Management

Advanced Motor Technology

Driving transformational impact

Over 150 million kWh of energy saved

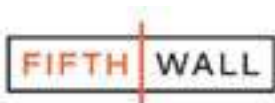

The same impact as planting 60 thousand acres of new forest

Turntide at a glance

- 200+ Patents
- \$485 Million raised
- 300+ Customers
- Founded in 2013
- Offices in US, Canada, UK, and India

Backed by visionary investors

We're accelerating electrification and sustainable operations to make every watt worthwhile

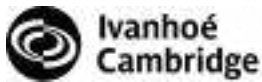

Helping energy-intensive industries reach their decarbonization goals

Turntide for Buildings™

HVAC motor retrofits bring together optimal efficient equipment, intelligence, and controls to reduce wasted energy.

- + Smart Motor System™
- + Cloud Building Management

FIVE GUYS

SPROUTS
FARMERS MARKET

Turntide Intelligent Barn™

Dairy farms can optimize animal well-being and improve efficiency with smart equipment, connectivity, insights, and controls.

- + DairyBOS
- + VES-Artex Barn Solutions

Turntide Vehicle Electrification

Equipment manufacturers can go to market faster with a complete electrification solution designed to maximize performance and safety.

- + Batteries
- + Power Electronics
- + Motors
- + Thermal

Award-winning technology with over 200+ patents
