

# Utility Rebates

for the Turntide Smart Motor System™

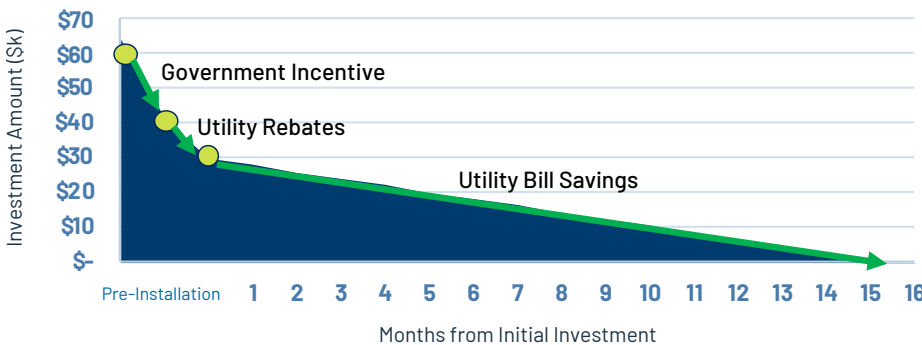

## Dramatically reduce the cost of your HVAC motor retrofit with utility rebates

Retrofitting your HVAC motors may be a lot less expensive than you think. Turntide's Smart Motor System™ qualifies for many utility rebates, which can significantly reduce project costs, increasing your profits and helping you see faster ROI. In many cases, rebates and incentives can absorb as much as 50% of project costs and reduce your payback period to an incredible 1-2 years.

Taking advantage of the unprecedented amount of rebate dollars available to accelerate your project and start seeing energy savings faster.

### Example of payback in just over a year

### The Impact of Rebates
