

Turntide Technician App

HVAC Retrofits Made Easy

With just your smartphone in hand, Turntide Technician provides everything you need to interface with Turntide smart motors when you're on a rooftop. With powerful features built into the application supported by a friendly user interface, Turntide Technician makes evaluating, commissioning, and installing Turntide Smart Motor System™ energy conservation measure (ECM) projects easy.

Streamline

Provides a single, convenient touchpoint when you're on a roof

Profit

Accelerates delivery of successful Turntide ECM projects

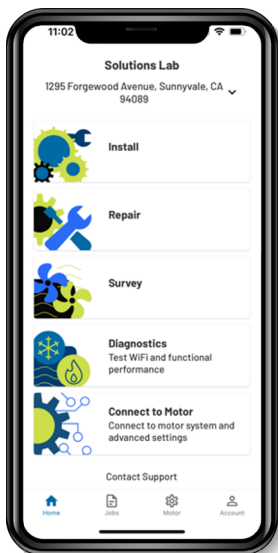

Optimize

Refine motor system performance post-installation

Access everything you need for a rooftop visit right from your phone

- **Reduces paperwork** in the field
- **Eliminates the need to bring extra computing devices** to the rooftop
- **Assists technicians** with timely help and support

Access everything you need for any rooftop visit, in one application

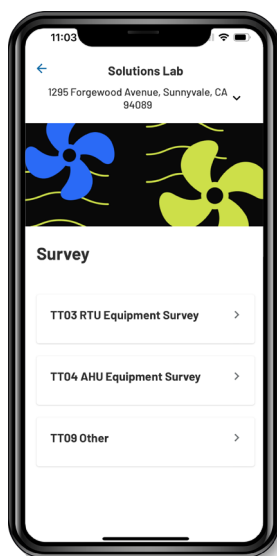

Allows users to commission Turntide motors with their personal mobile device

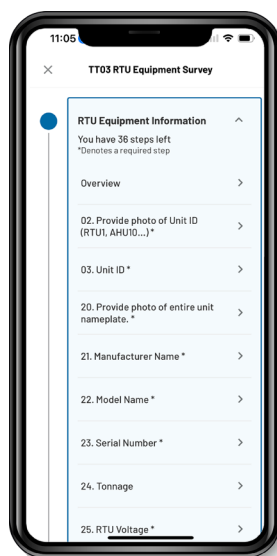

Houses important installation information and documentation

Shorten training and installation time to deliver projects faster and more efficiently

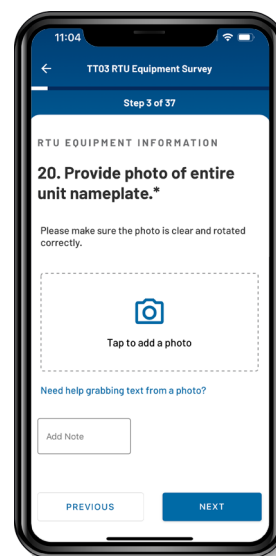

- **Shortens the time** to evaluate, install, and commission Turntide HVAC retrofits
- **Reduces ramp-up period** to train new technicians and installers
- **Scales up a faster delivery** process of Turntide ECM projects

Integrates all project management workflows

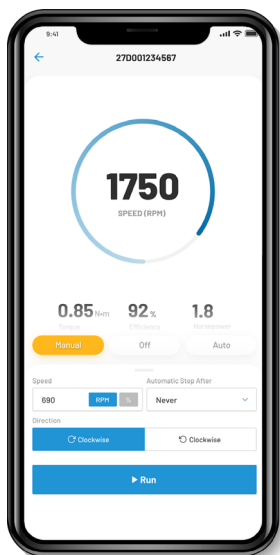

Simplifies the equipment surveying process with step-by-step guidance and instructions

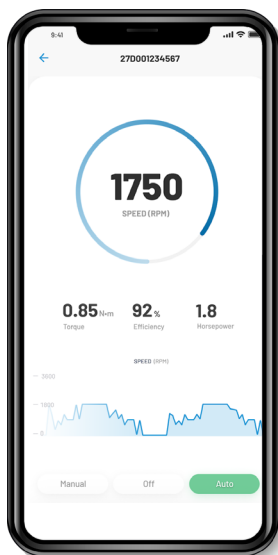

Extracts text from images to reduce time to capture information

Remotely troubleshoot and optimize energy savings with easy access to data

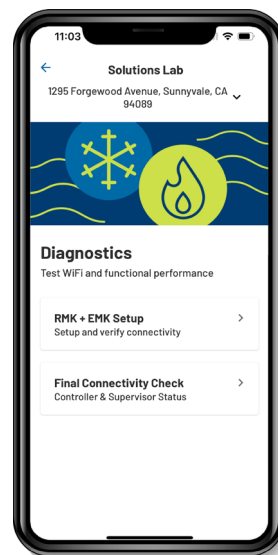

- **Optimize energy savings** on the fly
- **Identify potential anomalies** in motor or system performance
- **Resolve field issues** quickly

Adjust motor operating parameters and flows

Access real-time motor performance data

Quickly find troubleshooting information and processes
