

Rebates for HVAC Motor Retrofits

The Comprehensive Energy Management Solutions (CEMS) program offers cash incentives to SDG&E® commercial customers in the greater San Diego area to upgrade or install high-efficiency equipment. CEMS is partnering with Turntide and offering rebates for the Turntide Smart Motor System to help customers reduce energy expenses.

Utility rebates cover the cost of the Turntide motor system

50-100% of Turntide product costs may be covered by the rebate for Turntide motors between 5 – 15 HP*

*Labor costs vary by partner and region. Labor costs may or may not be covered by the Turntide rebate depending on the incentive amount and current labor rates.

Savings and Details

Utility rebates for Turntide motors provide up to hundreds of dollars in savings per horsepower

High incentive amounts (\$300+) per horsepower are available in many industries, including quick service restaurants, multi-site retail, grocery, shopping malls, schools and more.

Energy-saving innovation on your building's rooftop

The high rotor pole-switched reluctance motor, patented and designed by Turntide, runs rooftop units more efficiently, reducing HVAC energy use by an average of 64%. Turntide's Smart Motor System™ is comprised of a motor and motor controller which runs optimal sequences to ensure comfort with minimal energy use.
