

GETTING STARTED:

Turntide Rebates in Pennsylvania

Utility Rebates for Turntide-Enhanced Buildings

Utility rebates greatly accelerate the ROI of Turntide HVAC retrofit projects. As a technology thoroughly vetted and scientifically proven by real-world results, Turntide motors qualify for an unprecedented amount of utility rebates.

The Rebate:

Turntide works with Willdan, an implementer of Pennsylvania Act 129 utility energy efficiency programs, to provide strong incentives for Turntide motor retrofits. Willdan works with channel partners to maximize incentives and minimize administration. Best of all: Willdan, Turntide's rebate administrator, removes time-consuming logistics and paperwork while maximizing transparency in the process.

Working with Willdan and Turntide, you can be confident that you have dedicated partners to ensure you reduce your customer's energy consumption and obtain the best available incentives.

Rebate programs were established through PA Act 129 of 2008 and are funded by a rider on customer utility bills.

Savings and Details

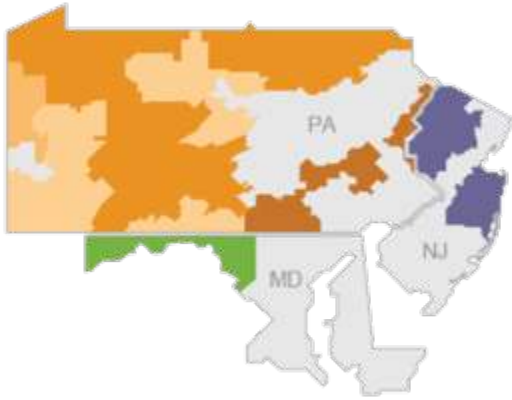

The rebate covers all aspects of Turntide's HVAC Motor Upgrade and Tune-Up solution and includes costs associated with travel, installation, site surveys, and hardware

- Turntide HVAC Motor Upgrade (switched reluctance motor upgrade)
- Condenser cleaning
- Evaporator cleaning
- Refrigerant charge correction

Up to 80% of total project costs covered*

- \$1.85 for each kWh saved from retrofitting Turntide motors
- \$0.80 for each kWh saved from HVAC Tune-up
- Both savings combined cannot exceed 80% of total project costs

* - Precise incentives vary by state and utility
- Includes both equipment and installation costs

Location Eligibility

Available for customers with buildings in select territories located in Pennsylvania, New Jersey, and Maryland.

HVAC System Eligibility

There are no specific limitations for HVAC motor upgrades. Turntide's improved motor technology will produce savings that will be accounted for through the rebate.

HVAC Tune-Up rebates are eligible for systems up to 20 tons nameplate capacity. With systems over 20 tons requiring additional review and approval.

Here's How to Get Started

Contact your Turntide channel partner or contact us at Turntide (hvacmotorsales@turntide.com) to get started on scoping out a rollout. We'll work with you and connect you to Willdan to ensure your Turntide project is covered by the rebate.

STEP 1

Register with Turntide partner Willdan

STEP 2

Register customer and eligible site locations

STEP 3

Build project budget and submit for approval

STEP 4

Get approval from Willdan to proceed

STEP 5

Deploy and install HVAC upgrade

STEP 6

Submit for payment and get paid within 14 days

Willdan's Rebate Payment Process: Steps and Deliverables

Not Eligible for This Rebate?

Refer to our [Utility Rebates](#) document to see if your building locations qualify for other North American rebates. Turntide products qualify for many rebates that accelerate the ROI of your Turntide project.
